Dear Councilmember:

The enclosed is a personal expression made available to most attendees of the meeting at Taft on Prospect Hill today, attended by the Honorable Mayor Bortz. At this meeting announcement was made of the conveyance of deed to the Hillside Trust of land located between Boal and Pueblo Streets, west of Drake Street on Prospect Hill. There has been concerted effort to culminate in a development on this property. Please consider the long term significance of such a development, labeled experimental, on this important land, which may be better developed by a similar mechanism subsequent to a successful, experimental effort applied to a less significant site. The Boal Street site is in fact capable of supporting the most dramatic, future-oriented development, attracting world-wide investment attention. Let us save our baby for its highest expression. Thank you for your interest in our best possible future.

Respectfully yours,

John R. Schmidt
